

# IBM Cognos 8 Controller standard reports

## Overview

**IBM Cognos® 8 Controller offers your Finance department unique advantages in delivering the wide range of reports required by management and regulators. Controller saves time and money by providing more than 200 pre-configured, standard reports to give you out-of-the-box functionality throughout the close cycle.**

**IBM Cognos 8 Controller extends your consolidation capabilities and supports in-depth analysis of compliance and audit information. The diverse, detailed reports available in Controller help you deliver precisely the information you need in the format you need it.**

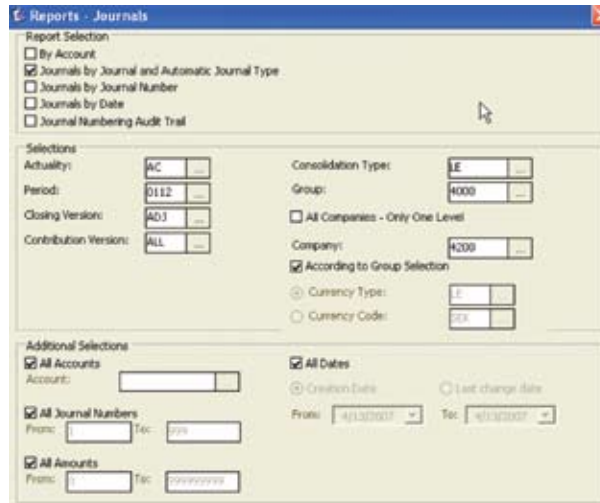

## Technical Specifications

With IBM Cognos 8 Controller:

- All reports required at key stages of the close process are available automatically—no custom report creation is needed.
- Fast, instant analysis is possible at any time during the close.
- Speed and quality of the close are greatly improved.
- Time and costs of initial deployment are low, creating a cost effective environment to facilitate rapid change.

## Reports on data

Journal reports:

*This report allows you to see manual and automatic journals on a "debit-credit" configuration. Several selections are possible, e.g., by journal, account, or date.*

## IBM Cognos 8 Controller standard reports

### Features and benefits

The pre-configured reports of IBM Cognos 8 Controller cover more than three dozen distinct categories, allowing you to examine or present financial information at whatever level of detail the situation demands.

For example, within **Group\Reports\Journals**, five report options are available. You can select your report by:

- Account
- Journals by Journal and Automatic Journal Type
- Journals by Journal Number
- Journals by Date
- Journals numbering audit trail

IBM Cognos 8 Controller is the only solution delivering prebuilt close reporting. It provides unmatched visibility and control throughout the close process. And all of these reports will work on-demand in virtually any finance environment.

### Feature overview

IBM Cognos 8 Controller includes the following pre-configured, standard **reports on data**:

- Company\Reconcile - Between Accounts/Opening Balances (3 report options)
